Comments on course effectiveness

Course materials were presented in a well organized manner.and13.and10.Content reflected sufficient arguments to clearly understand and evaluate the course objectives.

More in-class discussions with the whole group would be great. The lectures seemed to be one class time behind the readings

Group discussions and readings were particularly effective for my personal learning. I would say that this was a great course that offered many ways to learn about the topic.

Fair amount of discussions which was great for this but maybe more discussions? I feel like that would've made the class better than a lot of lecturing. Also too much reading in and out of class.

Instructor Comments

Always available to consultationand13.and10.Was well organized in classroom material presentation

Nalei is a great professor. He cared for his students and creat ed a kind atmosphere in the classroom. Don't be afraid to expect excellence from your students. Don't be too easy on them :-)

I liked that you would give us feedback on the essays if we wrote you a draft. It helped a lot transitioning into writing essays for college.

The lectures were engaging and interesting, and there was also the fact that the prof had a very engaging attitude towards the topic. The forced readings forced me to pay attention to what we were talking about and the group discussions allowed for me to understand my classmates ideas on the same topic.
